

HOW TO ORDER COVID-19 RT-PCR TEST

For Specimens Collected at the NKGen Biotech Facility

1 - Complete a Test Order Form

A COVID-19 RT-PCR test order form must be completed by a physician. Fax the completed form to NKGen Biotech at (949) 861-9565. Instruct patient to call our facility for appointment (see step #2).

2 - Schedule a Specimen Collection

Instruct patient to call NKGen Biotech at 949-396-6830 for an appointment. Upper respiratory specimen samples will be collected on-site at the NKGen Biotech facility in Santa Ana, CA. A completed order form must be received by the NKGen Biotech Clinical Lab BEFORE the patient can schedule an appointment.

For Specimens Collected at the Doctor's Office

1 - Complete a Test Order Form

A COVID-19 RT-PCR test order form must be completed by a physician. The completed form must accompany the respiratory swab sample when submitted to NKGen Biotech for processing.

2 - Specimen Collection

Patient upper respiratory specimens can be collected by a healthcare provider in their office or clinic. Please see NKGen Biotech Specimen Collection Guide for more details.

3 - Deliver to NKGen Biotech for Processing

Specimen swabs collected at a healthcare providers office or clinic must be collected and prepared for shipment as per NKGen Biotech guidelines. Specimens should be shipped to NKGen Biotech via FedEx or courier (if available).
